EXPERIENCE

Amazon.com AWS Cloud9, Amsterdam
Software Development Engineer

May 2017 - PRESENT

Develop for the full stack of the AWS Cloud9 IDE. Technologies include various AWS cloud services, ElasticSearch, NodeJS, Lambda and Java. Had a focus on operations and debugging utilities.

Amazon.com Builder Tools, Seattle, Washington
Software Development Engineer

August 2014 - May 2017

On a team owning, supporting, and improving an internal ticketing system with Jira–like and operational tracking features to replace an existing legacy system used company wide. Worked extensively with customers internally and using AWS services.

Freelance Software Developer

January 2012 - PRESENT

Freelance projects I have completed on the side over the years include Wordpress websites and an iOS and Android application.

Internships

January 2011 - August 2013

Completed internships at NASA researching phytoplankton detection techniques, GE Aviation, Cisco Systems and Amazon.

EDUCATION

University of Cincinnati, Akron, Ohio, USA
Bachelors, Masters

August 2009 - August 2014

Completed a Bachelors in Computer Science with honors and a Masters degree specializing in using machine learning techniques on drug repositioning.
